Below we explain How to add a course to your courses list in GR++ and add yourself to the mailing list of the course.

- This also will allow the course staff to feed your HW / exam grades and notify you about that in case you ask. Note that this is the simplest way to be updated about your HW / exam grades!
- This will exemplify the above for 234114. For other courses, all you have to do is to change the course ID.

**Step 1:** Browse to GR++ login screen at

http://grades.cs.technion.ac.il

**Step 2:** Fill your ID and password (the same as your course registration password) and click "Proceed".
Step 3: In the "Settings" tab, chose "Course list".

Step 4: Enter the ID of the course you wish to add and click "Proceed". Bingo the course has been added. If you decide to drop the course please remove it from your list.

FAQ:

1. What if I forgot my password?
   Please contact the secretaries at Ullman 400.

2. I still can't see my grades even though everything went well?
   Please allow at least 24 hours for the lists to be updated in the teacher's side. If the problem is not solved please contact the TA in charge.

3. Will I get email everytime a new grade is published?
   By default no, but if you click on the "autoUpdate" button and add the course there then you will be auto-updated about every grade change.
