Industrial Project Course - Computer Science Department, Technion
Spring Semester 2017

I am pleased that __________ has decided to cooperate with the Technion Computer Science Department in carrying out the software project: [__] ________________ , as part of the Industrial Project course (No. 234313) held in the spring semester 2017. The industrial supervisor of the project will be ________________, and the academic coordinators will be Prof. Ron Kimmel and Prof. Danny Raz.

The project, which was approved by the academic coordinator of the course, will be conducted at the Technion by a pair of undergraduate students, chosen by the Company and studying in the course under the Technion academic rules and regulations.

I expect that the company and the industrial supervisor will be committed to provide an active and professional guidance throughout the semester.

I would like to state that the Technion and the students will not be legally responsible for either the quality or compliance of the project deliverables or any of its derivatives to any purpose or for the completion of the project. The Technion will also not be responsible for any inappropriate behavior or negligence on the students’ part.

Any confidential information should be marked as such. Marked confidential information will be kept in confidence by the students and will not be transferred to a third party.

We hereby agree that the project results and the related Intellectual Property rights generated in the scope of the project will be owned by the company.

As a part of the course requirements, a final academic report and/or deliverables (as defined in the project plan) will be delivered to the industrial supervisor at the end of the project period.
The students will be graded for the performance of their project. The final project grade will be determined by the academic coordinator in consultation with the Industrial supervisor.

The Technion and the students have the right to make any academic presentation and/or publication. In the event that the company wishes to file a patent for any of the project deliverables, it may request, in the final presentation, in writing, the Technion and the students to delay any external publication or presentation of related information.

The company and the students must ensure that the students conducting the project were not employed by the company 6 months prior to the commencement of the project and will not be employed by it two months after completion of the project.

Please return a signed letter confirming the contents of this letter.

We are looking forward to see fruitful projects.

Sincerely,

Prof. Irad Yavneh
Technion, CS Department, Dean
