Homework #3

Make the following changes to your application from Ex1:

- Use at least two languages (add at least one additional language)
  - If you choose to use Hebrew, you need to add the 'iw' locale as well as the 'he' locale

- Add an action bar with a menu item for “Send Order”

- Add button to select (one) food type from list (there will be at least 5 food types with pictures in the list)
  - When returning from food selection activity, main activity should display a toast stating which food was chosen
  - See illustration below for (illustration is missing the action bar):
