Exercises

1. Exercises are provided for the student benefit. As there is no TA nor grader assigned to this course, grading will be for delivery of exercises in timely manner only. Some of the work will be optional and not for delivery as will be indicated.

2. Delivery of work by students should be done in class two weeks after it has been announced.

3. Reception hour is Sunday, 15:30–16:30, upon coordination (i.e. email in advance if you plan to attend). Please use it for any question you may have about exercises. Extended reception period on that day may be available (upon request and coordination).
