Term paper guidelines (for 236818)

The term paper should consist of three parts:

1. A brief description of the contents of the topic in your own words
2. Putting the material in the context of the course
3. A critical review: does the paper solve the problems it set to solve? If not, what is missing? Try to limit yourself to 5,000 words

And please submit it in hardcopy!

Good luck, Ron
